

Huts

How To Play :

F = A = a

E = B = b

C = c

11.2115.

Each player is going to need 10 'hooks' and 90 'twigs'.
Be creative, and use whatever's available (i.e paperclips and toothpicks). Then, start making words by using your elements. Once you've created a word or phrase, get rid of the last added element (a hook or a twig), and create another phrase with the remaining elements. Get rid of all the elements first and you WIN! Winner of the round gives last person to finish the round an element of his or her choosing. **REPEAT!**

X = X

Y = Y

Z = Z

- Beer Wrestler.
